Your door journey starts here

With over 300 door styles, a bespoke colour palette and glass range to choose from, you can create a personalised Distinction door that is truly unique to your home.

Choose your door style

Your front door is the first thing visitors will see. Cherry-pick your perfect design from a wide variety of traditional and contemporary styles. Use our online door-designer configurator to create your new front door today at door-designer.co.uk.

Choose your door colour

Let your imagination run wild with our collection of exclusive colours. Specially selected by our design team, there's a colour to suit every home.

Choose your glass design

Complement your new composite door with one of our decorative glass designs. Providing the finishing touch, there's a design to suit every property style - traditional, period, contemporary and modern.

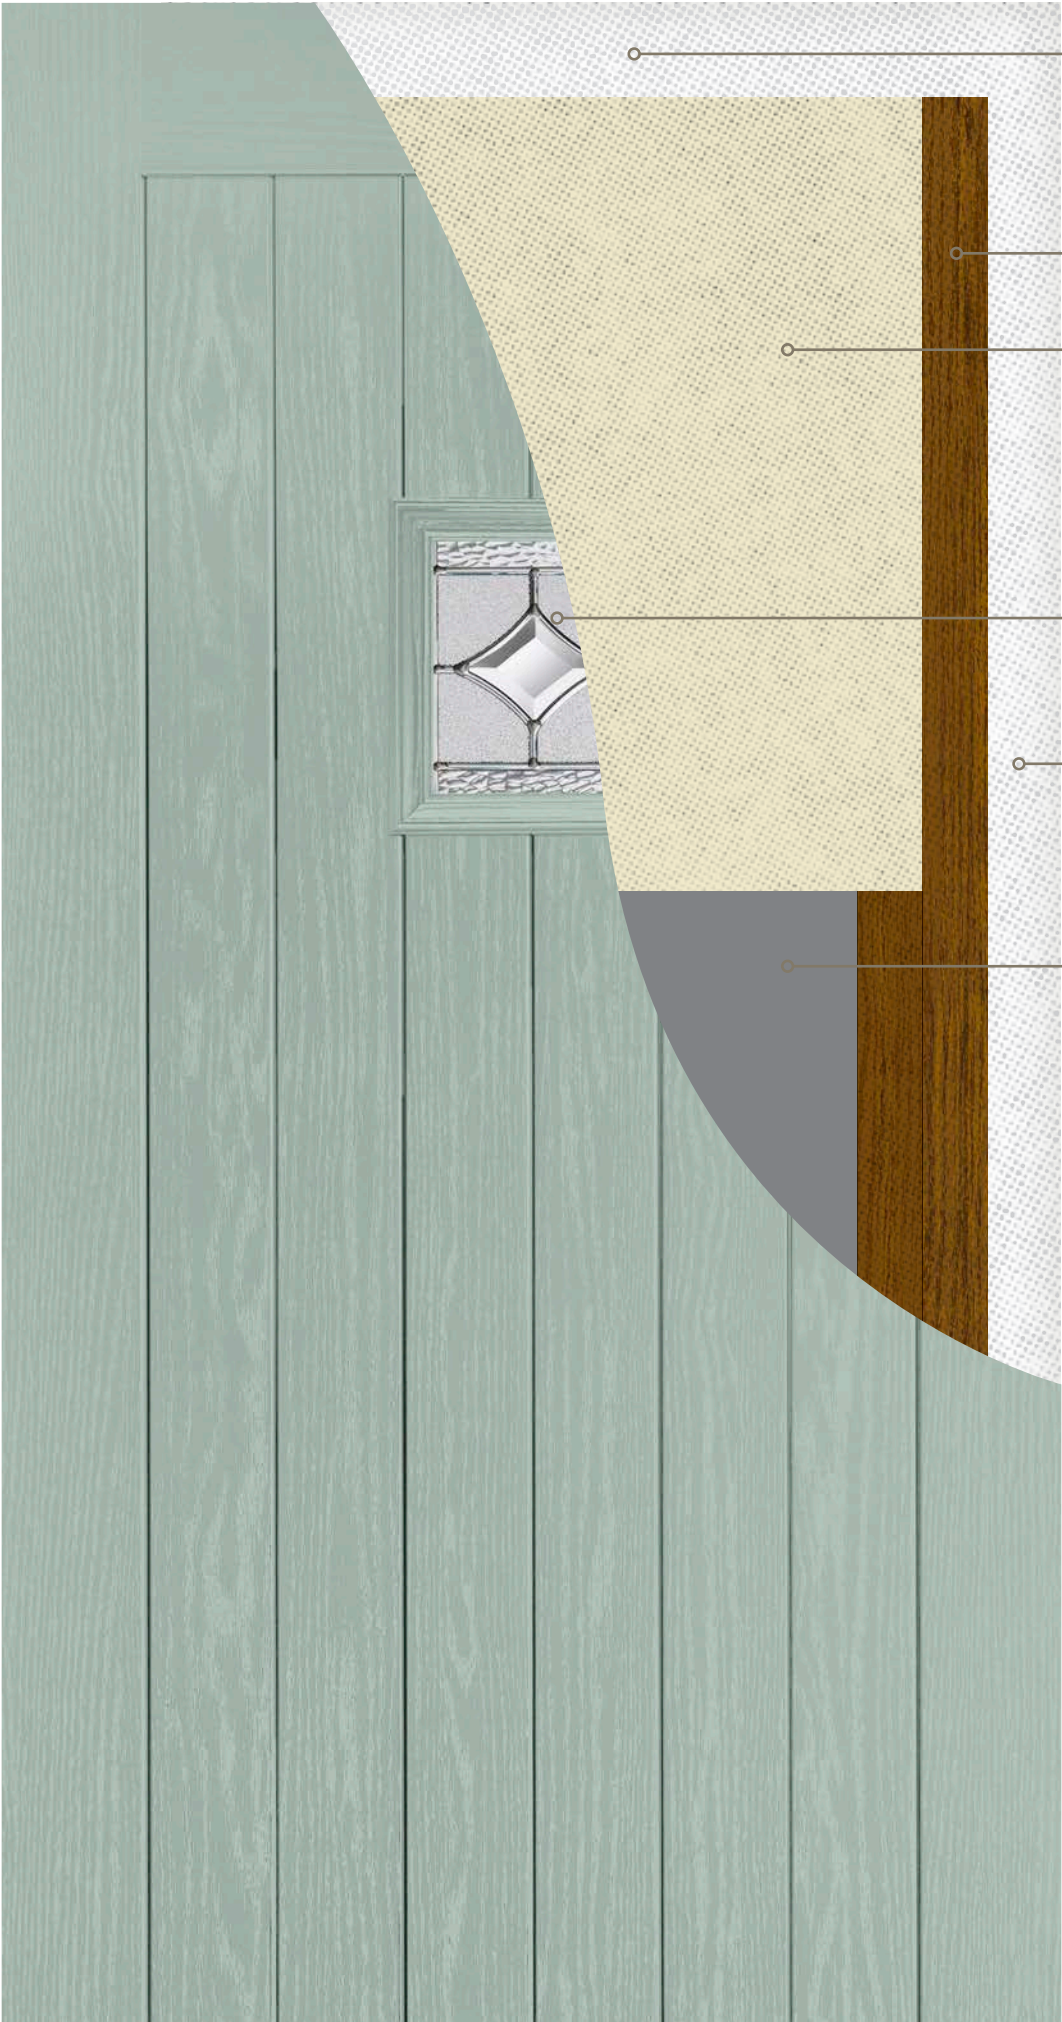

Tried, tested and trusted

At Distinction Doors we believe in innovation without compromise.

With over 15 years’ experience, we use our expertise and knowledge to continuously develop our products. That’s why our revolutionary nxt-gen, traditional Signature and contemporary Glass Reinforced Plastic (GRP) composite door blanks comfortably meet the latest standards and exceed the expectations of UK homeowners.

As composite doors become more widely available, and with more choice than ever, it’s hard to know what you should look for in your new door. But don’t worry, we’re here to guide you through, explaining everything you need to know about composite doors...

Quality you expect

We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Distinction door an authentic and premium aesthetic.

Engineered wood

For improved stability.

Foam filled core

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. Tests prove that a Distinction door is 19% more thermally efficient than a 48mm solid timber core composite door and 17% more thermally efficient than a 44mm traditional timber panelled door.

Decorative glass

Triple glazed and laminated as standard 24mm glass units for extra security and peace of mind.

Water-resistant composites

Thanks to the water-resistant polymer composite rails, our doors will help keep water absorption away, this helps prevent a bowed door that could happen with solid timber core composite doors on the market.

Reinforced core

The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure.

We believe that everyone should feel safe and secure in their home, that is why our products* are Secured by Design (SBD) accredited.

SBD is a widely respected and long-established official police security initiative operated by the UK Police Service.

It provides a recognised standard for all security products which can deter and reduce crime, and help people live more safely.

Our SBD accredited products are available through SBD approved door fabricators only.

They have been rigorously tested by a United Kingdom Accreditation Service (UKAS) accredited independent, third-party certification body and meet the security requirements of the SBD Police Preferred Specification.

The colour edit

Colour is a vitally important part of daily life. It has the magical ability to change your mood, spark an idea and trigger a reaction. Colour is one of the first things we learn to recognise. We categorise things by colour and we all have our favourites. Remarkably, in the same way that smell can transport you back to a

moment in time, colour helps us store and process memories. When we bank a memory, we are also saving the colours associated with it. Colour has the power to evoke feeling. That's why it's important to choose the right colour for your front door; you are setting the mood for the whole house.

Industry expertise

Bethaney
Design Expert

While intense tones of blue, yellow and green will add depth to our style choices. Bright pink is an option for those wanting to be Insta-ready.

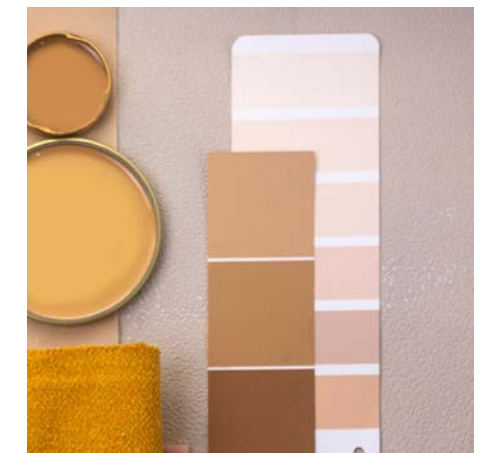

Emma
Design Expert

An entrance door sets the tone for the rest of the home. By painting it a unique colour, it can open, quite literally, a world of endless possibility.

Lorna
Design Expert

The desire for comfort has led trend setters to turn away from cool tones and instead, inject warmth into our base colours.

What's your colour inspiration?

Reds

Red is a strong colour that conjures images of London buses and Royal Mail postboxes. While it may command attention and signal optimism, it comes in many shades so there's a tone to suit all tastes, property styles and façades.

Greys

Consistently our best-selling and most versatile colour, we have greys for days! Exuding elegance, they are typically a modern choice but when teamed with the right door style they can transform even the most traditional of homes. They offer neutrality and compromise.

Blues

Always popular, blue reads as trust, calm and peace. Trend setters predict it to be prominent in both menswear and interiors. Blue is a very dependable colour, a staple in our homes as much as in our wardrobes. Loyalty and integrity are key.

Greens

With its link to the natural world, green is an important hue. Restful and balanced, it creates a refreshing look and feel. Our new Pale Green is a great example of this.

Colours shown should be used for guidance only as the limitations in the printing process may mean that colours vary from those illustrated. Hardware shown is for guidance only and may vary from that illustrated. * Kara colour available in Zinc only.

Colour Palette

Carefully curated in-house, our non-toxic, odourless, low emission and eco-friendly bespoke paint range offers something different.

Discover deeper, richer tones; classic and delicate neutrals; and shades designed to bring joy.

You can choose a colour for both inside and out, and they don't need to match.

Please note, Standard White, Black, Blue, Green, Red, Rosewood, Gold Oak, Premium Distinction Anthracite Grey and Premium Chartwell are colours available from stock (see colour guide on page 68).

Immerse yourself...

nxt-gen

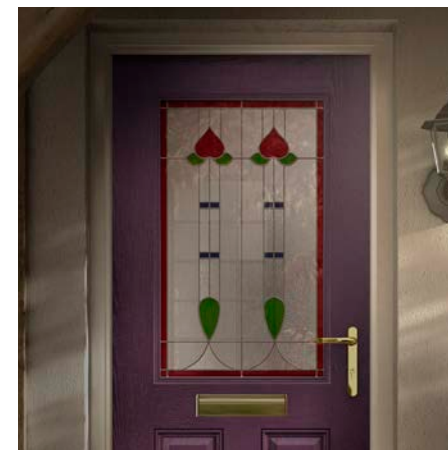

The front door. We all know how important it is. It's the first thing we see and we use it every day. It protects us and our possessions and helps keep our home safe and warm. All the while, we expect it to look good, and stay looking good.

That's why we have developed the nxt-generation composite door. Our nxt-gen range combines innovation and simplicity

with the performance you'd expect from a modern composite door.

Characterised by sleek lines and a flush finish, the nxt-gen range oozes style.

Make it your own and choose from over 30 bespoke colours and a wide selection of decorative glass. The nxt-gen range - front doors for modern life.

Double Rebated

Sometimes it’s the little things in life that can give the most satisfaction. The feel of reassurance and quality you get from closing a thicker and heavier door is a perfect example.

In addition to all the fantastic benefits of nxt-gen and contemporary doors, our collection of double rebated doors are over 50% thicker, and you can enjoy a 25% better thermal efficiency to help the environment and your heating bills. Improved noise reduction also helps your home remain a sanctuary of peace and quiet.

Choose our 50mm triple glazed, laminated glass units for extra security. Glass available: Aspen, Edwardian, Kara (Zinc or Brass Caming only) and Monza.

Disclaimer: Please note this range is not SBD accredited.

Contemporary

We know that style and security are no longer mutually exclusive. That's why we have great pleasure in introducing you to our contemporary door styles.

This range takes how you think a front door should look and flips it, offering grooves, wood-grain effect and playful glass configurations to create statement door styles.

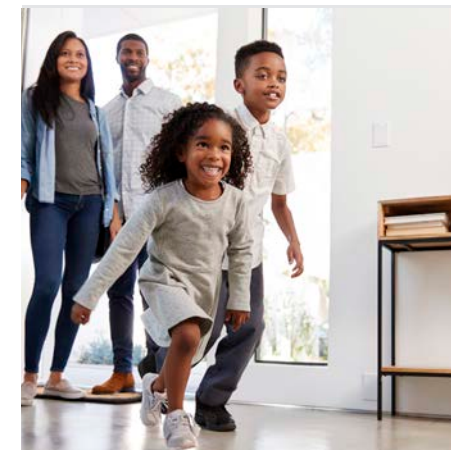

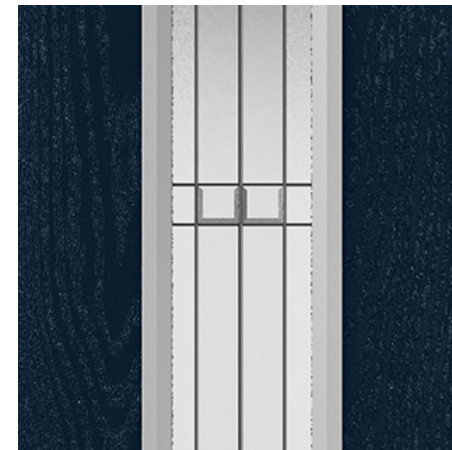

Then, dial up or down with one of our bespoke colours.

Remember you can choose a colour for both inside and out, and they don't need to match! Complete the look with one of our glass designs.

Go on...be bold.

Technical Guidance

Cleaning and Maintenance

Your Distinction GRP composite door has been designed to be easy to maintain. To keep your door clean, prolong the life of the surface finish and protect your warranty, we recommend you wash it regularly using warm soapy water (washing up liquid is ideal) and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door:

- Abrasive cleaners or scouring pads
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc.
- High pressure or steam cleaners.

Technical Figures

A Distinction GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero.

Energy Efficiency

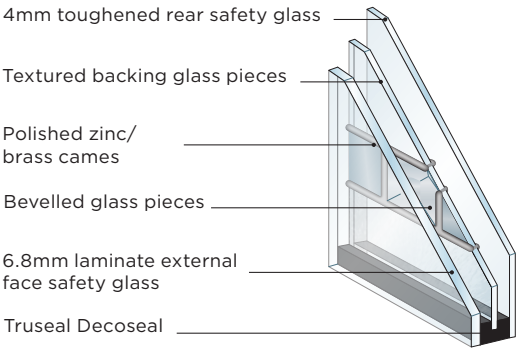

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. One of the best ways to achieve this is to choose thermally efficient products which keep warmth in and cold out, saving money and emission levels.

Doors were tested at the University of Salford's Energy House. This represents a typical Salford 1919 terraced house and its construction represents 21% of the UK's current housing stock. The house has been reconstructed in a fully environmentally controllable chamber, in which climatic conditions can be maintained, varied, repeated and patterns monitored. For the test, the inside temperature of the Energy House was 25°C with an exterior temperature of 5°C.

Decorative Glass

Features and benefits:

- Decorative triple glazing
- The decorative centre pane is sealed within the unit therefore, it is protected from dust and weathering
- Easy to clean
- 6.8mm glass laminated as standard
- 50mm units available for 70mm doors
- Glass patterns may vary
- Slight bubbles, lines and surface imperfections are all characteristics of glass. They are not to be considered as defects as they add character to decorative glass.

Bethaney
Design Expert

Simply wipe your composite door with warm soapy water.
